Subject: Microsoft Rollover or DOJ WimpOut

Oh please! For God's sake. We -- American public/tax payer in the person of the DOJ -- won! Why do we have to feel so guilty that we total capitulate in favor of the one that is really guilty? We are not guilty. We are not guilty. Keep saying that if it helps. Microsoft is guilty. Microsoft is guilty. Microsoft is a convicted criminal. Treat if like one.

If I get a speeding ticket, do I get to negotiate my punishment after I am found guilty? And promise to speed on all the unpaved back roads too. If I rob a bank (more like what MS has done), do I get to keep the money, and buy a couple of real banks to further my crime.

They have been doing the same crime for more than ten years. I only speed once in a while. And I have not robbed a bank yet. But if I get the same treatment that MS is getting, I may just speed all the time and get into robbing banks.

How can you guys do this? At least make them pay the (tax payers') court cost! The tax payers should not have to pay again. And again. And again.

You guys should be ashamed.
